

GoWesty

INSTRUCTIONS:

1. Print out both pages and color in the van.
2. Cut out the van, tires, and pop top.
3. Glue the tabs, and fold the van together.

Tips:

- * It can help to score the paper along the fold line to create a sharper edge.
- * It helps to pre-bend the 4 sides (front, back and both sides) of the van a little bit along the beltline. This relieves stress when gluing.
- * Have fun!
